

ROLLING SHOP STOOL

Built for efficiency and comfort, this Rolling Shop Stool is the perfect companion for garages, workshops, and fabrication spaces. With a compact footprint of 20”H x 16”W x 31”D, it delivers smart storage without sacrificing mobility. The 3” foam cushion top provides a comfortable seat or kneeling surface, while the integrated magnetic paper towel holder keeps cleanup within arm’s reach. A fixed upper shelf offers quick-access storage for frequently used tools or supplies. Both sides feature pegboard panels with 9/32” holes, allowing you to customize tool organization to your workflow. Below, two deep drawers with liners keep hand tools and parts secure and rattle-free. Stay organized with two built-in cup holders with screwdriver holders and dual-size inserts, perfect for drinks, fasteners, or small tools. The unit rolls smoothly on (4) 3” swivel casters, making it easy to reposition wherever the job takes you.
