

HD PACKOUT CABINETS

Specialty storage cabinets are built to house modular packout systems safely and efficiently, keeping tools and equipment organized and within easy reach. Constructed from reinforced steel, each cabinet includes dedicated bays or shelving designed to fit standard packout containers from brands like Milwaukee and DeWalt, allowing fast loading, unloading, and reconfiguration as your workflow changes. Adjustable shelves support a wide range of packout sizes and hold up to 200 lbs per shelf. Heavy-duty doors protect contents while providing smooth, convenient access. A tough industrial-grade finish resists wear, impact, and corrosion. Ideal for fabrication shops, service departments, fleet maintenance, and both mobile and stationary workspaces that rely on standardized packout organization.

STANDARD FEATURES:

- 16-Gauge steel construction ensures long-lasting strength
- Double-sided doors built for durability
- Full-length stainless steel hinges for smooth operation
- Flush mount chrome or black latch with raised trigger
- Textured powder-coated finish for a durable, professional look
- All Packout Cabinets come 72" or 78"H with a 6" toe kick (78" or 84" is full height on these models)
- Up to (12) pack out sliding shelves for low profile pack outs 2.5" tall
- Up to (9) pack out shelves for 4.5" boxes
- Up to (3) pack out shelves for 17" boxes
- Multiple configurations hole spacing for rail slides are 2.5" center to center
- All packouts sold separately
