

ISLAND CABINET

Built for gathering, designed for performance, the South Forty Specialties Island cabinet is the foundation for a seamless outdoor entertaining experience. Featuring a durable steel base and a warm butcher block top, this unit blends rugged construction with elevated style. The standard configuration includes two end cabinets, each equipped with a convenient drawer and single-door storage, offering easy access to tools, glassware, and essentials. At the center, a dedicated pull-out drawer is designed specifically to house the Cooler Keg system, creating a clean, integrated draft setup without sacrificing space or accessibility. For added flexibility, an alternate configuration is available with one end cabinet replaced by a built-in garbage cabinet, perfect for keeping your space clean and functional while entertaining. Finished with a butcher block work surface and standard foot cleats for stability and secure installation, this island is built to handle everything from casual get-togethers to full-scale hosting. Pair it with the Cooler Keg for a complete, high-performance beverage station, or let it stand alone as a versatile outdoor centerpiece.
