

HD WORKSTATION

Engineered for efficiency and built to handle serious workloads, this professional steel workstation brings power, storage, and organization together in one streamlined system. The heavy-duty 16-gauge steel base provides a rock-solid foundation, while the 13-drawer lower cabinet configuration offers exceptional storage capacity for tools, parts, and accessories. Each drawer is equipped with 400-lb full-extension slides for smooth, reliable performance under heavy loads, and select drawers include built-in organizers to keep essentials neatly arranged. Two integrated power drawers in the lower cabinets provide convenient access to charging and electrical outlets right where you need them. Up top, dual locking upper cabinets with a steel pegboard back panel create a highly functional workspace for hanging tools and supplies (hooks not included). Integrated LED lighting illuminates your work area, and the upper pegboard includes USB-C and standard electrical outlets for powering devices and tools. Galvanized drawer boxes add an extra layer of durability for long-term, professional use.
