COOLER KEG

Take your setup anywhere with the Cooler Keg a fully self-contained, stainless steel cooler and CO^2-powered draft system built for ultimate portability and performance. From backyard gatherings to lake days and everything in between, this unit brings the bar wherever you go. Designed to handle just about anything you want on tap, the Cooler Keg gives you the freedom to serve your favorite beverages with ease. Its unique carbonation and chill system keeps drinks perfectly cold and consistently pressurized, so you can enjoy extended hours of smooth, refreshing pours without compromise. Durable, compact, and ready for adventure, the Cooler Keg™ is just as at home on the move as it is built into a custom South Forty Specialties Island configuration, making it the perfect centerpiece for elevated outdoor entertaining.
